The SAGE Handbook of Qualitative Business and Management Research Methods Dec 13 2021 The SAGE Handbook of Qualitative Business and Management Research Methods provides a state-of-the-art overview of qualitative research methods in the business and management field. Bringing together a team of leading international researchers, the chapters offer a comprehensive overview of the history and traditions that underpin qualitative research in the field. The chapters in this volume have been arranged into four thematic parts: Part One explores the influential traditions underpinning qualitative research, such as positivism, interpretivism, pragmatism, constructionism and beyond. Part Two looks at research designs, covering ethnography, field research, action research, case studies, process and practice methodologies. Part Three focusses on the researcher: examining issues such as positionality, reflexivity, ethics, gender and intersectionality. Part Four examines challenges relating to research design, access and departure, choosing participants and more.

International Human Resource Management Oct 31 2020 "I enthusiastically endorse the fourth edition of IHRM. The editors are to be congratulated for recruiting the top-rated authors in this field to contribute to this volume. The chapters are up to date, insightful, and sometimes even provocative. Students, including post-grads and advanced undergraduates, as well as savvy practitioners, will benefit from reading this volume." Neal M. Ashkanasy, Professor of Management, The University of Queensland Anne-Wil Harzing and Ashly Pinnington's bestselling textbook has guided thousands of students through their International Human Resource Management studies. The fourth edition retains the critical edge, academic rigour and breadth of coverage which have established this book as the most authoritative text on the market. The new edition by our international team of experts provides an even more stimulating journey through the core curriculum, contemporary debates and emerging issues in IHRM. New for the fourth edition: Reduced number of chapters to allow for greater depth and an improved structure ensuring fundamental topics underpin your knowledge Expanded coverage of Equality and Diversity, Corporate Social Responsibility and Sustainability and Cross-Cultural Management in line with developments in the field New Stop and Reflect feature provides an opportunity to test your understanding at regular intervals This text comes with access to a companion website containing web links, SAGE journal articles and more.

Reshaping Accounting and Management Control Systems Aug 29 2020 This book examines the relationship between digital innovations on the one hand, and accounting and management information systems on the other. In particular it addresses topics including cloud computing, data mining, XBRL, and digital platforms. It presents an analysis of how new technologies can reshape accounting and management information systems, enhancing their information potentialities and their ability to support decision-making processes, as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies. Focusing on the four major aspects data management, information system architecture, external and internal reporting, the book offers a valuable resource for CIOs, CFOs and more generally for business managers, as well as for researchers and scholars. It is mainly based on a selection of the best papers - original double blind reviewed contributions - presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).

Research in Personnel and Human Resources Management Dec 01 2020 Research in Personnel and Human Resources Management is designed to promote theory and research on important substantive and methodological topics in the field of human resources management.

Enablers of Organisational Learning, Knowledge Management, and Innovation May 26 2020 This book establishes constructivist, interpretivist, and linguistic approaches based on conventions about the nature of qualitative and text data, the author's influence on text interpretation, and the validity checks used to justify text interpretations. Vast quantities of text and qualitative data in organizations often go unexplored. Text analytics outlined in this book allow readers to understand the process of converting unstructured text data into meaningful data for analysis in order to measure employee opinions, feedback, and reviews through sentiment analysis to support fact-based decision making. The methods involve using NVivo and RapidMiner software to perform lexical analysis, categorization, clustering, pattern recognition, tagging, annotation, memo creation, information extraction, association analysis, and visualization. The methodological approach in the book uses innovation theory as a sensitizing concept to lay the foundation for the analysis of research data, suggesting approaches for empirical exploration of organizational learning, knowledge management, and innovation practices amongst geographically dispersed individuals and team members. Based on data obtained from a private educational organization that has offices dispersed across Asia through focus group discussions and interviews on these topics, the author highlights the need for integrating organizational learning, knowledge management, and innovation to improve organizational performance, exploring perspectives on collective relationships and networks, organizational characteristics and structures, and tacit and overt values which influence such innovation initiatives. In the process, the author puts forward a new theory which is built on

three themes: relationship and networks, knowledge sharing mechanisms, and the role of social cognitive schema that facilitate emergent learning, knowledge management, and innovation.

A Guide to Professional Doctorates in Business and Management Nov 12 2021 *Shortlisted in the Management and Leadership Textbook Category at CMI Management Book of the Year Awards 2017* A Guide to Professional Doctorates in Business and Management has been written by a team of experts with experience of the challenges faced in both studying for and supervising professional doctorates in business and management. Inside they address the key issues faced, in particular how these courses differ from a traditional PhD, and the different skills and approach needed for success. Chapters explore the nature and importance of PDs as leading change in the professional world of practice, and how they need to differ from traditional forms of doctorate such as PhDs. The guide also offers practical guidance on researching in this particular mode, and through writing and publishing a thesis, making a valuable contribution to professional knowledge. -- Dr Catherine Groves

The Flow of Management Ideas Aug 09 2021 The widespread promotion of management ideas, their regular inclusion in textbooks and business school curricula and their use in organizational change programs has engendered debates about the impact of these ideas on management and organizational practice. Based on analyses of managerial audience members' activities and related meaning-making prior to, during and after guru events with leading management thinkers, this book sheds new light on how management practitioners come to use management ideas in the different relevant contexts of their working lives. The authors argue that a broader, more differentiated and more dynamic view of managerial audiences is essential in understanding the impact of management ideas as well as the nature of contemporary managerial work. For scholars and students in organisation studies, knowledge management and management consultancy, as well as reflective management practitioners.

The Essentials of Knowledge Management Jan 22 2020 This book reviews the field of Knowledge Management, taking a holistic approach that includes both "soft" and "hard" aspects. It provides a broad perspective on the field, rather than one based on a single viewpoints from Computer Science or Organizational Learning, offering a comprehensive and integrated conception of Knowledge Management. The chapters represent the best Knowledge Management articles published in the 21st century in Knowledge Management Research & Practice and the European Journal of Information Systems, with contributors including Ikujiro Nonaka, Frada Burstein, and David Schwartz. Most of the chapters contribute significantly to practise as well as theory. The OR Essentials series presents a unique cross-section of high quality research work fundamental to understanding contemporary issues and research across a range of Operational Research topics. It brings together some of the best research papers from the highly respected journals of the Operational Research Society, also published by Palgrave Macmillan.

The Oxford Handbook of Contextual Approaches to Human Resource Management Dec 21 2019 In recent years scholars and practitioners have increasingly recognized that human resource management (HRM) has paid insufficient attention to the impact of context. While research has been devoted to examining the impact of national context on HRM systems, this literature has been largely separate from that focused on other levels of context affecting organizational choices in HRM strategies, such as the impact of the organizational environment, industry sector, occupation or workforce characteristics. In addition, research has tended to consider elements of context in isolation rather than considering its impact at different levels. The goal of *The Oxford Handbook of Contextual Approaches to Human Resource Management* is to provide a more holistic approach to developing a contextual understanding of HRM. This Handbook offers a comprehensive understanding of the influence of contextual characteristics on the design and implementation of HRM systems. Rather than focusing on a single level or approach to examining context, the Handbook provides both conceptual and empirical analyses of different elements of context using a range of different lenses and measures. In order to explore the influence of contextual factors at multiple levels, the volume assembles a range of detailed accounts of how context affects the design, implementation and impact of HRM activities.

Leadership and Change Management Jul 28 2020 A leader's role in the management of change is a critical issue for successful outcomes of strategic initiatives. Globalization and economic instability have prompted an increase in organizational changes related to downsizing and restructuring in order to improve financial performance and organizational competitiveness. Researchers agree that a leader's inability to fully understand what is needed in order to guide their organization through successful change can be a reason for failure. Proper planning and management of change can reduce the likelihood of failure, promote change effectiveness, and increase employee engagement. Yet, change in organizations must be viewed as a continuous activity that affects both organizational and individual outcomes. If change management can be considered as an event induced by socio-cultural factors, the cultural variable gains greater significance when applied to the quality of the relationship between a leader and their team. Many organizations today are on the verge of internationalization. It is here that the cultural context can affect behaviors and, in the same way, leadership style. The research presented in this book by an eminent group of scholars explores the influence of culture - ethnic, regional, religious - on how leaders manage change within organizations.

Research Journal for Applied Management - Jg. 2, Heft 1 Jul 20 2022 Das Research Journal for Applied Management präsentiert den Leserinnen und Lesern Ergebnisse aus der praxisorientierten Forschung zu Managementthemen. Die Beiträge dieser Ausgabe fokussieren auf konkreten Marktentwicklungen, Prozessen und Projektergebnissen und bedienen ein breites Spektrum an Managementthemen. Parallel zum Lehrbetrieb werden an der ISM International School of Management kontinuierlich Forschungs- und Entwicklungsprojekte in verschiedensten Bereichen durchgeführt. Von dieser anwendungsorientierten Forschung profitiert nicht nur die Wissenschaft, die auf diesem Weg überprüft, inwieweit theoretische Grundlagen auf die Praxis übertragen werden können. Der konkrete Bezug zu Tätigkeitsbereichen von Unternehmen ermöglicht es auch den Praxispartnern der ISM, die neuen Erkenntnisse zur Optimierung der erforschten Bereiche zu nutzen. Dies schafft für beide Seiten die Möglichkeit, sich zu profilieren und erfolgreich weiterzuentwickeln. Darüber hinaus basiert eine qualitativ hochwertige, praxisnahe und fundierte Lehre auf theoretischen Grundlagen, die um die Erkenntnisse anwendungsorientierter Forschung ergänzt werden. Durch die Mitarbeit in Forschungsprojekten lernen Studierende zudem, das Wissen in der Praxis anzuwenden. Hierdurch können sie nach Abschluss ihres Studiums schneller als Absolventen anderer Hochschulen selbstständig Aufgaben in Unternehmen übernehmen. So profitieren ISM-Dozenten ebenso wie ISM-Studierende und Praxispartner gleichermaßen von dem wissenschaftlichen Diskurs. Entsprechend ihrem Fokus in Lehre und Studium konzentrieren sich die

Forschungs- und Entwicklungsprojekte der ISM auf unterschiedliche Schwerpunkte und transdisziplinäre Ansätze in den Bereichen Internationalisierung der Wirtschaft, energieökonomische sowie umweltökonomische Forschung, Tourismusforschung, Logistik- und Informationsforschung, Finanz- und Bankenforschung, Marketing- und Kommunikationsforschung, Leadership- und Motivationsforschung und Organisations- und Personalforschung. Das Research Journal for Applied Management enthält aktuelle ISM-nahe empirische und/oder theoretische Forschungsergebnisse. Die Beiträge werden einem Double Peer (mit mindestens einem ISM-externen Experten) sowie einem Double-Blind-Begutachtungsverfahren unterzogen.
