In Westerns, women transmit complicated cultural coding about the nature of westward expansionism, heroism, family life, manliness and American femininity. As the genre changes and matures, depictions of women have transitioned from traditional to more modern roles. Frontier Feminine charts these significant shifts in the Western's transmission of gender values and expectations and aims to expand the critical arena in which Western film is situated by acknowledging the importance of women in this genre. Since the end of the Cold War, the Middle Ages has returned to debates about history, culture, and politics in Northern and Eastern Europe. This volume explores political medievalism in two language areas that are crucial to understanding global medievalism but are, due to language barriers, often inaccessible to the majority of Western scholars and students. The importance of Russian medievalism has been acknowledged, but little analysed until now. Medievalism in Finland and Russia offers a selection of chapters by Russian, Finnish and American scholars covering historiography, presidential speeches, participatory online discussions and the neo-pagan revival in Russia. Finland is currently even more poorly understood than Russia in the discussions about global medievalism. It is usually mentioned only as of the birthplace of the Soldiers of Odin. The street patrol is, however, a marginal phenomenon in Finnish medievalism as this volume demonstrates. Instead of merely adopting the medievalist interpretation of the international alt-right, even the right-wing populists in Finland refer more to the nationalistic medievalist tradition, where crusades do not mark a Western Christian victory over the Muslim East, but a Swedish occupation of Finnish lands. In addition to presenting particular cases of medievalism, the chapters here on Finland challenge and diversify today's prevailing interpretation of shared online medievalism of European and American right-wing populists. This book reveals that while medievalisms in Finland and Russia share many features with the contemporary Anglo-American medievalist imaginations, they also display many original characteristics due to particular political situations and indigenous medievalist traditions. They have their own meta-medievalisms, cumulative core ideas and interpretations about the medieval past that are thoroughly examined here in English for the very first time. An introvert by nature, Robert Young found that he could overcome his shyness by taking on other personalities when he performed with his high school's drama group. Further schooling in theatre arts at the Pasadena Playhouse, where he appeared in many productions, led to a screen test and a contract with Metro-Goldwyn-Mayer. Louis B. Mayer, the top man at MGM, said, "Young has no sex appeal." Yet during his years with the studio Robert starred in dozens of films and had prime supporting roles in many others. After leaving MGM to freelance for several years, he branched out into radio and starred on the

popular series Father Knows Best. He then repeated his parental role in its television adaptation, followed by Marcus Welby, M.D., both highly acclaimed series for which he won several awards. But for most of his adult years, unknown to all but his family and some close friends, Robert suffered from a chronic illness—one that almost killed him. Supported by his beloved wife Elizabeth, he persevered, entertaining millions of moviegoers, radio listeners, and television viewers well into his senior years. Troubles and Triumphs is his story. Explores the history of play in the U.S. from the point of view of children between six and twelve. "He knows. And he said he's gonna kill you." Jealous husbands are like that—likely to kill the other man. He needed to protect himself. She told him so. So he bought a gun. A gun he didn't want. A gun he didn't even want to touch. But when it came to it, would he be able to use it to save his own life? He found himself tangled in a web he couldn't escape and his only hope of freedom is to shoot his way out. The gun weighed heavy in his hand and heavier on his conscience. Dale is a crooked cop. It started slow, but grew like a cancer and now he can't get out from under the thumb of Tat, a would-be kingpin in every vice he can turn a profit with. And now Dale's number is up—the top brass knows. But instead of getting busted, Dale gets an offer. The mayor's daughter is being held by Tat in his fortress built from an abandoned office tower. They want her back but if they storm the gates, Lauren is as good as dead. So they're sending Dale on what could very likely be a suicide mission: infiltrate Tat's fortress and bring her out alive. If the Mayor even really wants her alive... Floor by floor Dale and Lauren have to fight off an increasingly difficult and dangerous set of obstacles. Meanwhile, Dale's wife has her own troubles and some of the drug kingpin's goons are only adding to an already rough day. The clock is ticking down along with the floors of the building and escape is looking less and less likely. But to save her, and to save himself, he must make it all the way down. Praise for ALL THE WAY DOWN: "Last chances, double crosses, and a cop who has to shoot his way out of a fortified skyscraper—what's not to love? All The Way Down rips. It's fast and fierce, like a guitar solo that hits all the sharpest notes." —Meg Gardiner, author of Into the Black Nowhere "Eric Beetner's All the Way Down is everything a reader could want from an action thriller—fast, suspenseful, and the right kind of outrageous. The stakes ratchet up with each harrowing surprise for crooked cop Dale and reporter Lauren, as they work together to escape the urban fortress of the city's maniacal kingpin. If every suicide mission was this much fun, we'd all sign on." —Glen Erik Hamilton, author of the Van Shaw thrillers "Beetner's Dale Burnett is a dirty cop trying to rescue someone from the clutches of the ruthless criminal he's been accepting money from...and fifteen floors of non-stop action follows! Beetner is a master at throwing more and more

trouble at his heroes, and in *All the Way Down*, Dale gets hit with everything imaginable. No, check that—you will not have imagined what happens on a couple of these floors. This book is an absolute blast.” —Frank Zafiro, creator and editor of *A Grifter’s Song* “Relentless.” —Rob Hart, author of the Ash McKenna series American national trade bibliography. This riveting exposé reveals how a distorted belief in Anglo superiority necessitated the rewriting of American western history, replacing heroic images of Mexican and Spanish cowboys with negative stereotypes. • Introduces topics unfamiliar to most readers, such as the role of Spanish-Mexican Jews, the presence of the Spanish Inquisition in the United States, and the real Yellow Rose of Texas • Reveals the duplicity of *la leyenda negra* to illustrate prejudices of the time • Traces the development of stereotypes such as the Black Legend, banditos, greasers, Zorro, the Cisco Kid, and "loose women," and how these characterizations came to depict Latinos in the Old West in the popular imagination • Documents Latinos' participation in the conquest of the territory west of the Mississippi This story is a fast moving western. A New York family named Hansom moves west by wagon train. The wagon master turns out to be a gunfighter who falls in love with Carla Hansom. They have many adventures along the way including an encounter with an outlaw sheriff known as Big Steve Long. This is the first of a saga of four stories. Second is "Bart of the Badlands". Third is "Lawmen of Laramie" and fourth is "Cowboy Cattle Call Songs". While Desi Arnaz and Lucille Ball are most closely associated with the classic situation comedy, *I Love Lucy*, the production company they founded in the 1950s, Desilu, made several other television series - some memorable like *The Lucy Show*, *The Untouchables*, *Mission:Impossible*, and *Star Trek*, and many almost forgotten such as *Willy and Grand Jury*. This book focuses on another aspect of Desilu - the all but forgotten TV pilots and unproduced specials contemplated by Desi and Lucy. Chronicled in this work are projects like Desilu’s version of *Dallas* - not a soap opera but a Western, an anthology series hosted by the artist Salvador Dali, Gene Roddenberry’s cop dramas, *Code 100* and *Police Story*, parodies of *The Untouchables* and *The Flintstones*, Desi’s unproduced sitcom comeback titled *Chairman of the Board*, and a 1961 unproduced TV special that would have starred Lucy along with Vivian Vance and William Frawley and perhaps Desi Arnaz in a cameo role. These and many other such projects are chronicled for the first time in *The Forgotten Desi and Lucy TV Projects: The Desilu Series and Specials that Might Have Been*. Richard Irvin is the author of several books about television history including *Four Star Television Productions: A History of the Business, Series, and Pilots of the Iconic Television Production Company*, *The Early Shows: A Reference Guide to Network and Syndicated Prime-Time Television Series from 1944 to 1949*, and *Spinning Laughter: Profiles of 111 Proposed Comedy Spin-offs and Sequels that Never Became a Series* - all from Bear Manor Media. *Reproduction of the original: The Yacht Club* by Oliver Optic *Reproduction of the original: Stem to Stern* by Oliver Optic This volume looks at the Western as it was

represented from the beginning of television, encompassing all manifestations of the Western, including such series as *Bonanza*, *Gunsmoke*, and *The Wild, Wild West*, as well as movies-of-the-week, mini-series, failed pilots, animated programs, documentaries, and even Western-themed episodes of non-Western series that provided their own spin on the genre. *Reproduction of the original: The Coming Wave* by Oliver Optic There’s a taco truck in Chicago known among a certain segment of the population for its daily specials. Late at night and during the wee hours of the morning, it isn’t the food selection that attracts customers, it’s the illegal weapons available with the special order. Each episode of *Guns & Tacos* features the story of one Chicagoland resident who visits the taco truck seeking a solution to life’s problems, a solution that always comes in a to-go bag. Episode 7: *Burritos & Bullets* by Eric Beetner Episode 8: *Jalapeño Poppers and a Flare Gun* by Michael Bracken & Trey R. Barker Episode 9: *Four Shrimp Tacos and a Walther P38* by Alec Cizak Episodes 10-12 of Season Two are featured in *Guns + Tacos Vol. 4*. This book traces the history of English education in the People’s Republic of China from 1949 to the present day. It uses the junior secondary school curriculum as the means to examine how English curriculum developers and textbook writers have confronted the shifting ambiguities and dilemmas over five distinct historical periods. The study of the processes of curriculum development and the products such as syllabi and textbooks offers insights into the construction of an ‘official’ English, as well as what was considered as acceptable content in English. This book addresses fundamental and significant questions concerning the English promoted in China, namely its characteristics; its changes over time and explanations for such changes; and the kind of content that has been viewed as appropriate for textbooks. To investigate these issues, the analysis draws on qualitative and quantitative data, such as interviews with principal stakeholders and analysis of the syllabus and recommended textbooks. Specifically, it looks at the choice and organization of linguistic components, and the orientation and messages of the curriculum. “Language education in China during the second half of the twentieth century might arguably be called the world’s largest language engineering project. In this comprehensive study, Dr Adamson examines a part of that project by charting the twists and turns of English language education from the pre-revolutionary period to the present. He successfully illustrates how tensions in China’s massive educational system are negotiated from center to periphery, how textbook writers adapt to the socio-political mandates of their time to construct formal school curricula. Adamson also raises significant questions regarding the contradictions inherent in Chinese globalization.” —Heidi Ross, Professor, Department of Educational Leadership and Policy Studies, School of Education, Indiana University at Bloomington “Bob Adamson has provided in this book one of the first detailed studies published in English of the history of a school subject in the PRC. The study provides fascinating insights into the changing nature of the English curriculum, the shifting socio-

political context of the PRC and their complex inter-relationships.” —Paul Morris, President, The Hong Kong Institute of Education “The learning of English is a crucial aspect of China’s opening up to the world and increasingly prominent global role. This welcome volume provides an in-depth historical perspective on this important subject, including the recent periods of modernization (1978–1993) and globalization (1993 to the present). It should be compelling reading for all those involved with contemporary China across a wide spectrum of areas.” —Ruth Hayhoe, University of Toronto; President Emerita, The Hong Kong Institute of Education *Reproduction of the original: All Taut* by Oliver Optic When Samantha awakes she is half buried in bricks and the smoke still swirls in the air. The car bomb didn’t killed her—small miracle. Her unfocused eyes see a figure coming nearer. A shape she recognizes somehow. As the person passes by the orange glow from the car fire’s light, she sees the face. Her face. But how? The other Samantha stands over her and regards her twin. Something is off about this new face. It is her, sure, but harder somehow. The new Sam turns and walks away, back toward the building she came out of before her car exploded. Back to see the two drug kingpins in the top floor offices. And somehow Samantha knows—back to take the deal she just turned down. Samantha Whelan is a DEA agent, and not always a straight and narrow one. She’s been taking bribes and doing favors for Calder and Rizzo—twin brothers and big players in narco traffic in southern California—for years. She turned down a deal that night, a deal to make her millions, but it meant killing her fiancé, an assistant district attorney building a case against Calder and Rizzo. And it meant betraying her DEA brethren more deeply than she had so far. It was too much. So Calder and Rizzo tried to blow her up. What happened then...she split. Samantha became Samantha and Sam. Two halves of the same person. The good side and the bad side. The two opposing forces living within her for so long were now free to fight it out to see who will win control. So begins a nightmarish rocket ride for Samantha to save her life and the lives of everyone she holds dear before Sam, her bad half, can burn it to the ground. Praise for *TWO IN THE HEAD*: “Two In the Head is a straight shot between the eyes. A gangbusters plot, punch-drunk pace, and gut-punch action propel this black hearted thriller from Eric Beetner.” —J. Todd Scott, author of *The Far Empty* and *Lost River*
