Von den Bergen Idahos nach Cambridge - der unwahrscheinliche »Bildungsweg« der Tara Westover. Tara Westover ist 17 Jahre alt, als sie zum ersten Mal eine Schulklasse betritt. Zehn Jahre später kann sie eine beeindruckende akademische Laufbahn vorweisen. Aufgewachsen im ländlichen Amerika, befreit sie sich aus einer ärmlichen, archaischen und von Paranoia und Gewalt geprägten Welt durch - Bildung, durch die Aneignung von Wissen, das ihr so lange vorenthalten worden war. Die Berge Idahos sind Taras Heimat, sie lebt als Kind im Einklang mit der grandiosen Natur, mit dem Wechsel der Jahreszeiten - und mit den Gesetzen, die ihr Vater aufstellt. Er ist ein fundamentalistischer Mormone, vom baldigen Ende der Welt überzeugt und voller Misstrauen gegenüber dem Staat, von dem er sich verfolgt

sieht. Tara und ihre Geschwister gehen nicht zur Schule, sie haben keine Geburtsurkunden, und ein Arzt wird selbst bei fürchterlichsten Verletzungen nicht gerufen. Und die kommen häufig vor, denn die Kinder müssen bei der schweren Arbeit auf Vaters Schrottplatz helfen, um über die Runden zu kommen. Taras Mutter, die einzige Hebamme in der Gegend, heilt die Wunden mit ihren Kräutern. Nichts ist dieser Welt ferner als Bildung. Und doch findet Tara die Kraft, sich auf die Aufnahmeprüfung fürs College vorzubereiten, auch wenn sie quasi bei null anfangen muss ... Wie Tara Westover sich aus dieser Welt befreit, überhaupt erst einmal ein Bewusstsein von sich selbst entwickelt, um den schmerzhaften Abnabelungsprozess von ihrer Familie bewältigen zu können, das beschreibt sie in diesem ergreifenden und wunderbar poetischen Buch. » Befreit wirft ein Licht auf einen Teil unseres Landes, den wir zu oft übersehen. Tara Westovers eindringliche Erzählung — davon, einen Platz für sich selbst in der Welt zu finden, ohne die Verbindung zu ihrer Familie und ihrer geliebten Heimat zu verlieren — verdient es, weithin gelesen zu werden.« J.D. It offers an ability to enter the business world and link passion with functionality." -Rose Martinelli, director of admissions and financial aid of the Wharton School MBA Program You don't have to go to college. That's very easy to say, and very hard to believe. The expectation of a college degree has become a traditional aspect of American parenting. A college diploma has become such a popular symbol of personal success and culture that 66 percent of U.S. high school graduates go to college, up from 14 percent only sixty years ago. But out of all the college students in America, only 26 percent get degrees after six years. Why have we come to believe that college is right for everyone, or that our children should go there right after high school? With a college education now costing an average of a hundred thousand dollars, maybe it's time for American parents to reconsider: do you really need college to succeed? As a middle-class parent, Linda Lee assumed that her son would attend a prestigious college and graduate in four years with high grades. Isn't that what all children of intelligent, middle-class parents do? Fifty thousand dollars later, after having seen every grade from A to F--and a few more, including W and I--Lee realized that her son was not ready for college. She was shocked to discover that his experience is not an exception but the rule: only 26 percent of students receive a bachelor's degree within six years. Why, then, are parents led to believe that their children must go to college right away? Why have we come to believe that college is right for everyone? Why isn't there as much focus on the alternatives to college as there is on getting into a good school? Success Without College is a landmark book. Linda Lee, an editor and writer for the "New York Times, reveals the surprising facts of why many bright kids are not suited for college (or at least not right after high school), and she explains to readers why this is happening. She provides profiles of students and parents from around the country who have found creative, positive solutions to their college dilemma; she interviews deans, admissions counselors, and other experts from the most esteemed schools and organizations in the country; and she offers suggestions for what parents can do if a child doesn't want to go to college right away, or isn't ready to get the most from the college experience. Get a 4-year, debt-free head start on the rest of your life with the valuable lessons learned by educator, speaker, and business coach, Seth Hymes. The reality is, there are irrefutable, evidence based, and statistically proven arguments for looking beyond college as you start your journey to creating a fulfilling life and career. And Skip College for Success offers detailed, step-by-step instructions on exactly how to do it. Get ready for an often hilarious,

sometimes biting, but always-honest discussion about the misguided frenzy behind the pressure to go to college and the insane academic roadmap to failure that has led to more than \$1.6 trillion in student debt. Don't be one of the millions who graduates lost, broke and unemployed! In Skip College for Success you'll learn: How post-graduate earning statistics are flat out lies How unemployment after college has risen dramatically How to get organized and make money without a degree How to network and find mentors How to navigate your taxes How to build and manage your credit How to start a successful business in today's economy (for less than the price of even 1 college class) How to grow a circle of life-long friends without the dorm room No matter what path you choose, the valuable insight and guidance in this book will leave you feeling empowered, enlightened, and more prepared to live your best life.
